

kreon installation manual

technics & dimensions

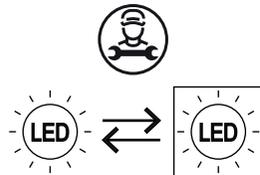

name	reference	voltage	power	LxW	D
Prologe on-kagi fixed lvl 1	KR95402X-XXXX-XX-XX	24 VDC	9,8W	144x45	45
Holon on-kagi fixed lvl 1	KR95452X-XXXX-XX-XX	24 VDC	9,8W	144x45	45

Please make sure the main voltage is disconnected before proceeding!

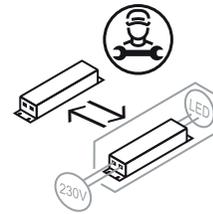

1. preparation

The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.

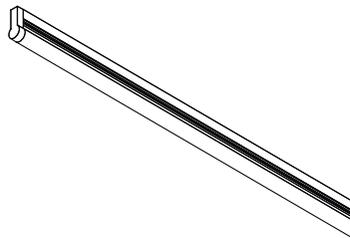

The gear contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.

2. installation

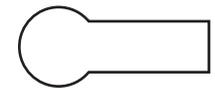

See manual KR8000002364 for installation of the main profile

Please note that these fixtures are only suitable for profiles on the first level of your Kagi structure. For fixtures of the second level please see manual KR8000002359.

✓ OK

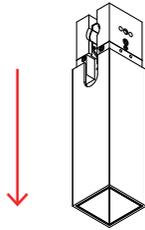

✗ NOT OK

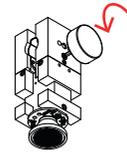

kreon installation manual

3. installation

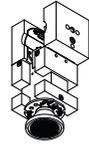

Remove the housing by sliding it down

Open the sliders by turning the screw, using the tool from KR754911, or a hex key, until you feel the blocking mechanism

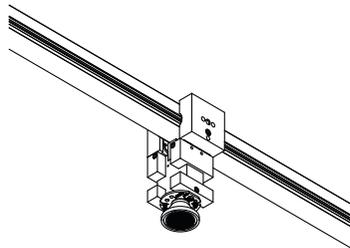

Make sure the sliders are open wide enough to fit over the profile

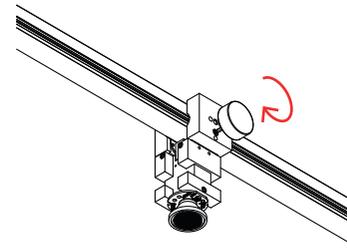

4. installation

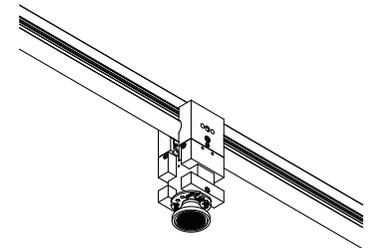

Place the fixture over the profile

Close the sliders using the tool, make sure no cables are pinched

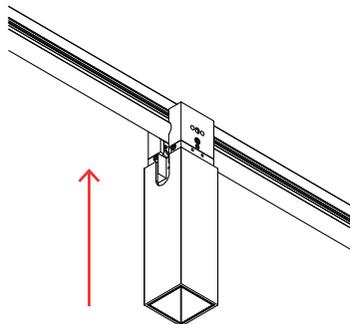

Make sure the fixture is securely in place

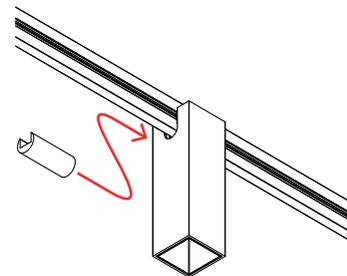

5. installation

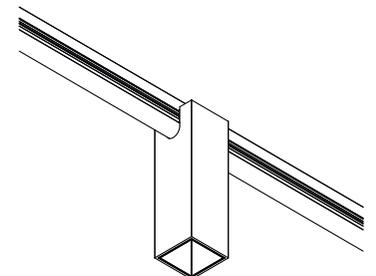

Slide the housing back over the fixture

In case of a blind profile, insert the gasket.
