# **'EON** holon 40 stock program

**Directional Recessed** 

**Finish** 

Description

kreon holon directional is a recessed, surface or track mounted spotlight with a rotational adjustment of 360° and an angular adjustment of 90°, which, when combined with the choice of spot, flood and wide flood TIR reflector, provides a truly versatile accent lighting tool. The new directional book is designed with a more robust arm, for wall mounting where consistent repositioning is common.

kreon holon fixed is the perfect solution for general lighting and features a flood beam mirror reflector set above the black or white internal louvre, optimised to create pools of light on horizontal surfaces or dramatic scalloping effects on verticals.

kreon holon 40 is a recessed, surface, pendant or track mounted spotlight with a fixed or directional rotational adjustment of 360° and an angular adjustment of 90°, which when combined with the choice of spot, flood, wide flood, darklight or wide darklight reflector, provides a truly versatile general or accent lighting tool. Use kreon holon fixed for to create pools or accents of light. kreon holon 40 book is a wall-mounted variation with a reinforced arm for intensive use. Suitable for installation on drywall, wood panel or grid ceilings with acoustic tiles.

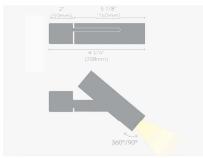

The luminaires are available in black and white. Pendant version only has a choice of white, black or red satin copper louver finish. RAL available on request, please consult factory

Optical system / LED's L80 greater than 50,000 hours.
