name

cleaning set Oran craft glass

reference

KR791120

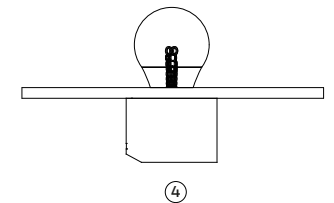

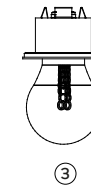

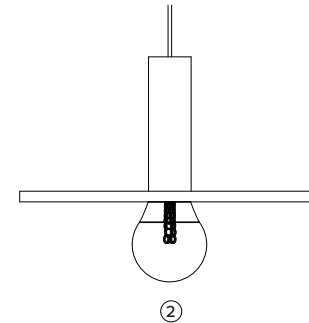

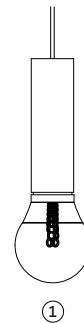

1. information

This manual is about how to clean an Oran **craft** glass for these fixtures

1. Oran pendant produced after 20/07/2020
2. Oran pendant kap
3. Oran in-line
4. Oran object

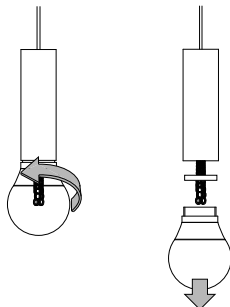

BE AWARE when (de-)assembling the fixtures

- The part around the lens is very fragile!
- In case of the Oran pendant kap and the Oran object the aluminum disk comes loose when unscrewing the craft glass

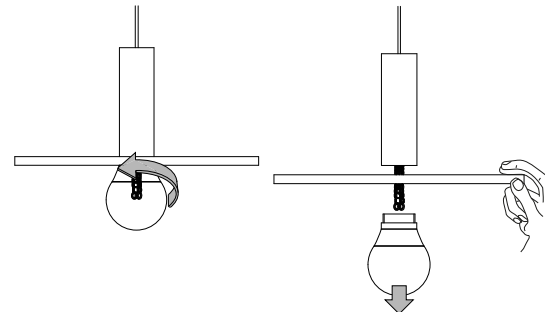

2. de-assembly

In case of Oran pendant: unscrew the craft glass

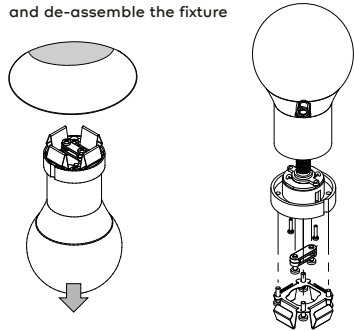

In case of Oran pendant kap: unscrew the craft glass

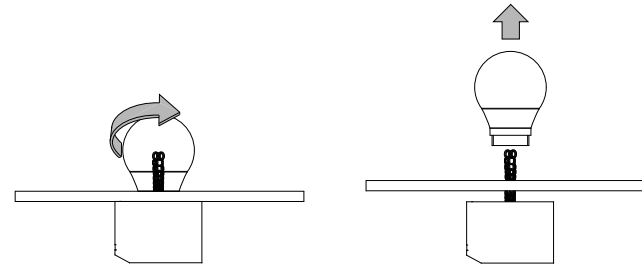

kreon installation manual

3. cleaning

In case of Oran in-line: remove from the plasterkit and de-assemble the fixture

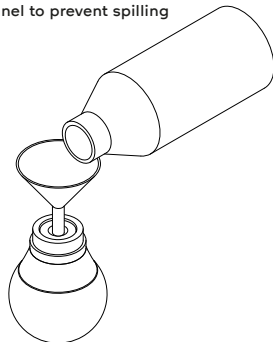

In case of Oran in-line: unscrew the craft glass

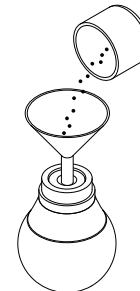

4. cleaning

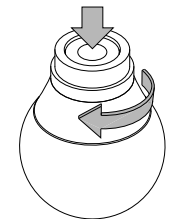

Fill the glass up to 1/3 with (cleaning) vinegar
Use a funnel to prevent spilling

Add the RVS pearls into the glass

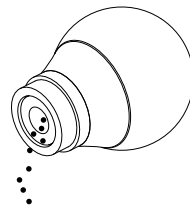

Swirl the glass gently around for +/- 1minute
Cover the hole to prevent any spilling

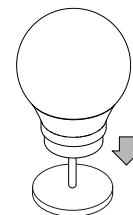

5. cleaning

Pour the vinegar and RVS pearls out of the glass
Collect all the pearls for re-use

Let the glass dry
Preferably up side down on a drying rack

Once dry, assemble the fixture again
