

Johto

Johto is a high quality linear lighting system based on LED for technically sophisticated interior and exterior light. It provides homogeneous and dot free illumination in very low installation depths. Johto can be used in applications varying from mood lighting to general lighting in office spaces, residential- or retail projects. The profile has a cross section of 15mm x 16mm, a maximum length of 5 meter* and is equipped with IP67 plug in connectors at both ends**.

The use of high quality and long living components warrant energy savings and sustainable lighting solutions with a long life time of over 50.000hrs.

remarks

- * available by combining 2x2m + 1m
- ** 4m module only available with 1 male connector

Johto module 0,5m

Johto module 1m

Johto module 2m

Johto end module 4m

Specifications

type	surface mounted
visible dimensions	L x 15mm x 16mm
power	10W/meter
voltage	24 Volt (23V _{min} , 25V _{max})
IP	67

temperature	tc _{min} = -25°C, tc _{max} = +60°C
storage temperature	t _{min} = -25°C, t _{max} = +85°C
ambient temperature	ta _{min} > -25°C, ta _{max} = +45°C
lifetime	L70, 50,000 hrs
	LM 79 compliant LM 80 compliant
	UV protected
	Resistant to solvents
	Saltwater resistant
	Temporary immersion protection
	The encapsulation technology causes a color temperature drift compared to the flex tape color temperature. There is no effect on homogeneity.
