

- the fixture is IP67 rated
- the fixture is water- and dust tight
- water should be able to flow of the product once installed
- when installed in solid ground (with or without matchbox) additional drainage must be provided (for example: a bed of gravel)
- make sure the coating (of the housing or other parts) is not damaged during installation or maintenance work: the damage can result in corrosion after contact with water
- the fixture should not be placed in road lanes, it should not be exposed to strain due to braking, acceleration and change of direction
- in order for the product to take pressure load, a proper foundation for the fixture should be provided by the client
- it is recommended to use the fixture in ground with a pH value between 5 and 8
- client should under no circumstances open the fixture themselves, in case of a problem, the fixture needs to be sent back to Kreon

up outdoor

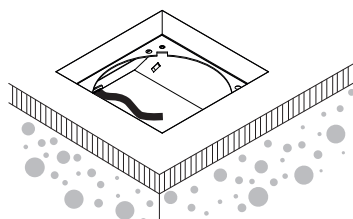

up in-line outdoor

name	reference	voltage/current
up outdoor gear incl.	KR982101/KR982102	230V
up outdoor gear excl.	KR982121/KR982122	700mA
up outdoor wallwasher gear excl.	KR982181/KR982182	700mA
up in-line outdoor gear incl.	KR982301/KR982302	230V
up in-line outdoor gear excl.	KR982321/KR982322	700mA
up in-line outdoor wallwasher gear excl.	KR982821/KR982822	700mA

Please make sure that
main voltage is disconnected
before proceeding!

2 dimensions

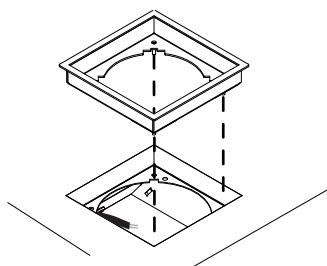

install the matchbox according to installation manual KR8820001883
(delivered with the matchbox)

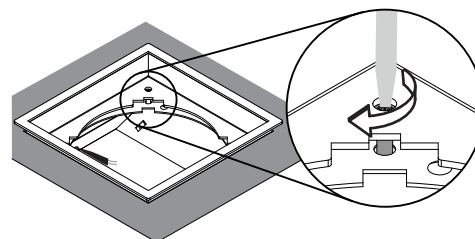

3 installation with
matchbox

name	reference
matchbox square	KR782103
matchbox square for gear incl	KR782104

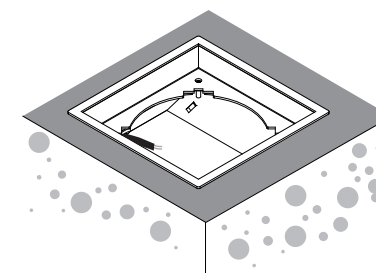

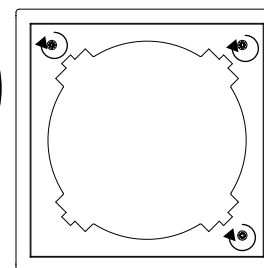

in case of up outdoor

align the 3 screws in the frame with 3 of the holes
+ nuts in the matchbox

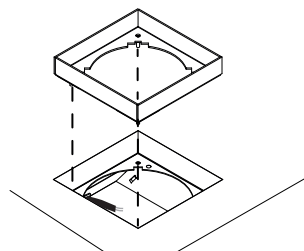

use the 3 screws to adjust to fix the frame onto
the matchbox

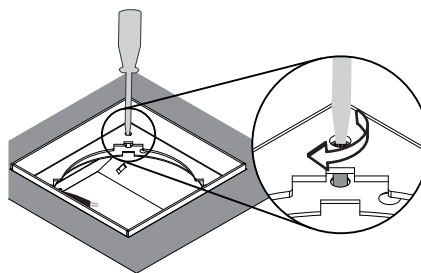

installation with
matchbox

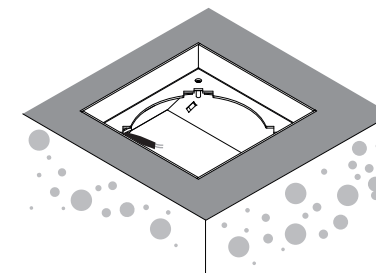

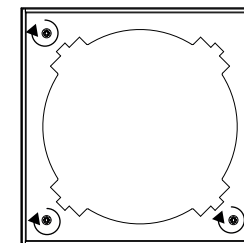

in case of up in-line outdoor

align the 3 screws in the frame with 3 of the holes + nuts in the matchbox

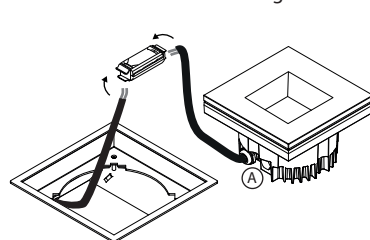

use the 3 screws to adjust the position of the frame, until it is flush with the floor

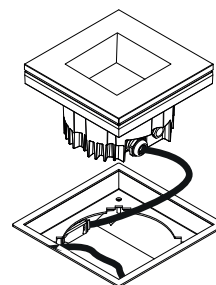

installation with
matchbox

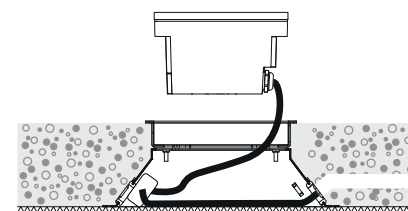

electric connection in case of gear included

make the electrical connection by using the KR782105 coupling sleeve (according to manual) or any suitable connection compartment with required protection class (max. dimensions: 25mm x 30mm x 120mm).

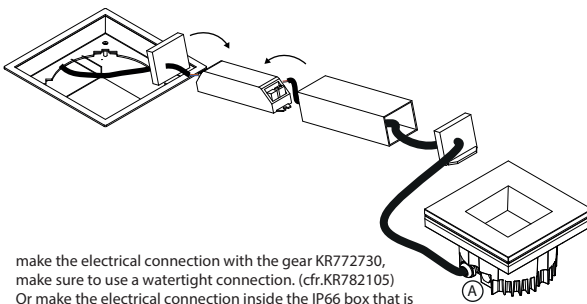

place the coupling sleeve (or connection compartment) in the matchbox, on the opposite side of the cable entrance in the matchbox

name	reference	voltage
up outdoor gear incl.	KR982101/KR982102	230V
up in-line outdoor gear incl.	KR982301/KR982302	230V

installation with
matchbox

electric connection in case gear excluded
in combination with matchbox KR782104

make the electrical connection with the gear KR772730, make sure to use a watertight connection. (cfr. KR782105)
Or make the electrical connection inside the IP66 box that is supplied with the gear KR772732, KR772733 (install the gear inside the box according to supplied manual), or any suitable gear in a suitable compartment with the required protection class.

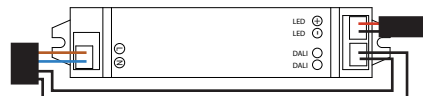

in case of on/off

in case of 1-10V dimmable

in case of dali dimmable (no touch dim!)

name	reference	current
up outdoor gear excl.	KR982121/KR982122	700mA
up in-line outdoor gear excl.	KR982321/KR982322	700mA
up outdoor wallwasher gear excl.	KR982181/KR982182	700mA
up in-line outdoor wallwasher gear excl.	KR982381/KR982382	700mA

IMPORTANT: check polarity of the LED!!

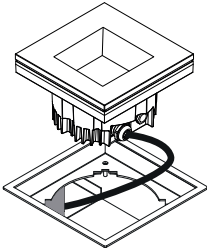

+ and - at driver side must match
+ and - at LED side

+ = red wire
- = black wire

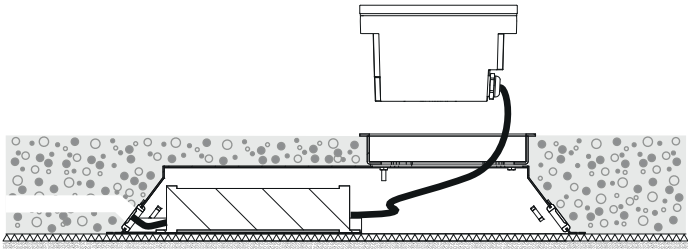

installation with
matchbox

the cable gland (A) must not be opened!

installation with
matchbox

place the IP66 box in the cavity of the matchbox

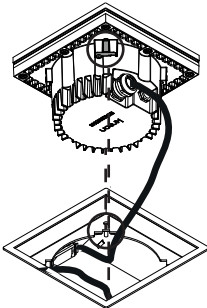

NOTE:

in case the gear is placed on remote and is not included in the matchbox, the installation will be similar to the installation explained under electrical connection of gear included

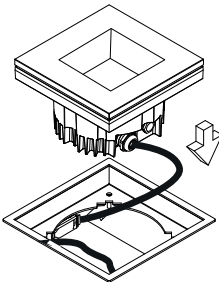

Take into account that in this case the polarity of the LED is important!
+ and - at driver side must match + and - at LED side

+ = red wire
- = black wire

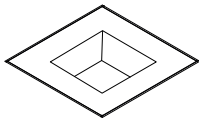

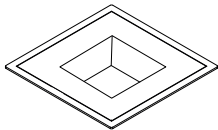

installation with
matchbox

align the two springs on the product with the cut-outs in the frame

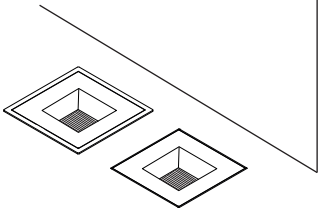

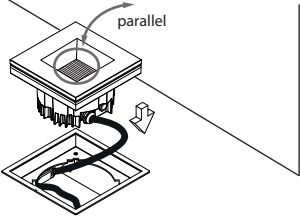

install the product by clicking it into the frame

installation with
matchbox

in case of wallwasher

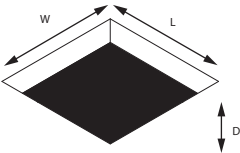

in case of wallwasher version, the orientation of the product is important. Always make sure that the lines in the wallwasher lens are parallel to the wall that needs to be enlightened.

up in-line outdoor gear excl.	KR982321/KR982322
up in-line outdoor wallwasher gear excl.	KR982381/KR982382

installation in
hollow floor

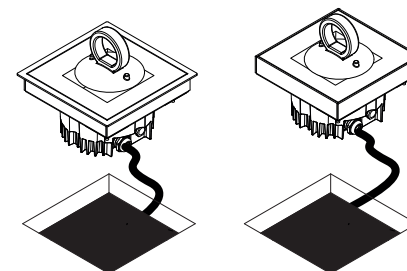

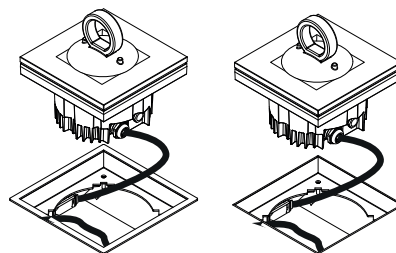

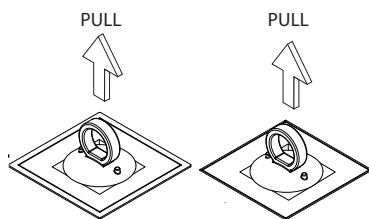

in case the depth is 92mm, install the product
in the cut-out of the floor

in case the depth is > 92mm, first fill out the depth until
the correct depth of 92mm is reached

in case of wallwasher version, the orientation of the product is important. Always make sure that
the lines in the wallwasher lens are parallel to the wall that needs to be enlightened.

in case of up (in-line) outdoor installed
with matchbox

in case of up (in-line) outdoor installed
in hollow floor

5 removal up
outdoor

in order to take the up back out the floor: place the
delivered suction cup on the glass and pull the
fixture out

when installed in a matchbox, only the product
itself without the finishing frame will be pulled out

when installed in a matchbox, the product plus the finishing frame
will be pulled out of the cut-out all at once
