technics & dimensions

name

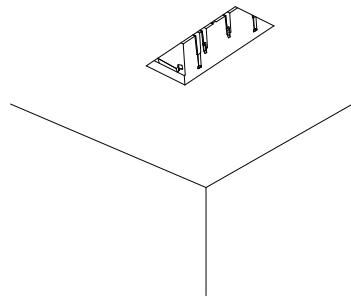

stripe 25 single SP
stripe 25 single DL or WDL
stripe 25 double SP
stripe 25 double DL or WDL
stripe 25 WW

reference

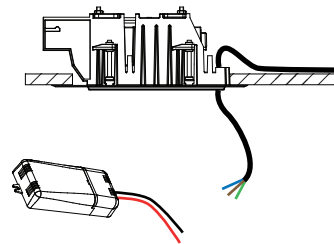

reference	current (mA)	Power (W)	LxW	D
KR93900x-xxxx-SP	700	2	102x28	86
KR93910x-xxxx-(W)DL	350	4,2	102x28	86
KR93920x-xxxx-SP	700	4	102x28	86
KR93930x-xxxx-(W)DL	350	8,3	102x28	86
KR93940x-xxxx	700	4	100x28	86

Please make sure the main voltage is disconnected before proceeding! ⚡

installation: connection

Install plasterkit stripe 25
See installation manual KR8000002333

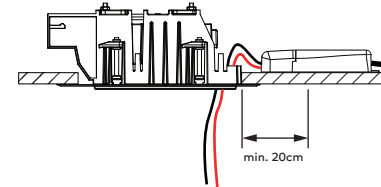

Connect the driver to the cables of the main voltage
Attach cables (red and black) to the driver

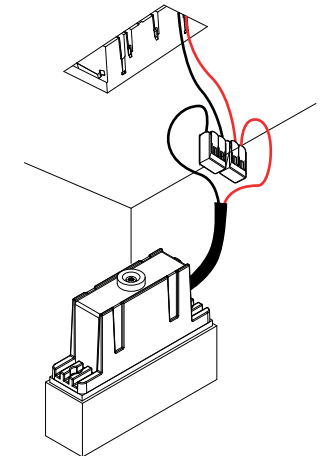

Mind the polarity of LED!

+=red
-=black

To connect more than one LED module to one driver,
see installation manual KR8000002081.

Place the gear on the ceiling
Make sure the cables are coming through the plasterkit

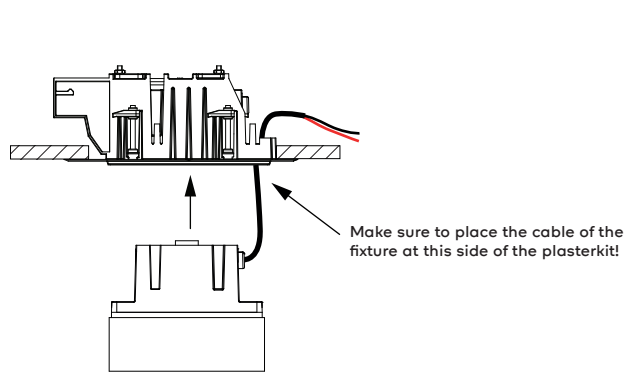

Connect fixture to the driver
Mind the polarity of LED!
+=red
-=black

Please make sure the main voltage is disconnected! ⚡

kreon installation manual

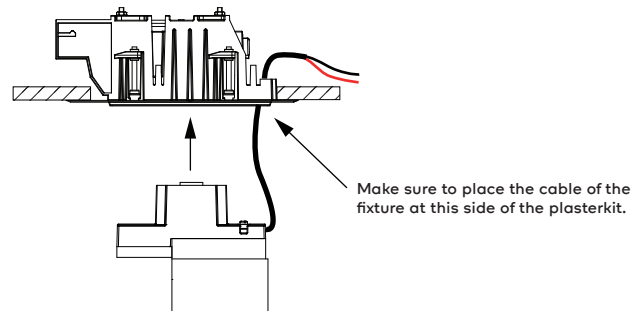

installation

stripe
single/ double

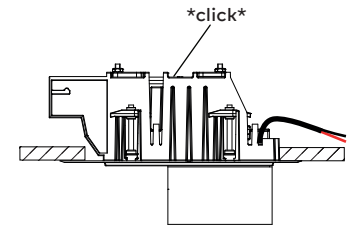

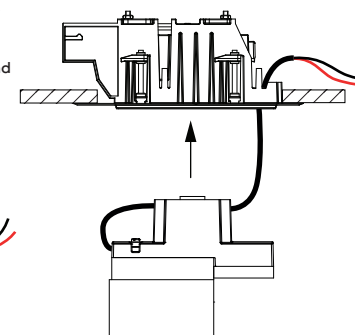

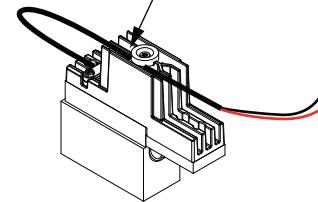

Insert fixture in the plasterkit
Magnet needs to click to backplate

stripe WW

Insert fixture in the plasterkit
Magnet needs to click to backplate

If the WW needs to be rotated, make sure to fixate the cable between the magnet and rib. This will make sure the cable doesn't get stuck between the magnet and the backplate
