## technics & dimensions

	name	reference	L1	L2	L3	W1	W2	W3	D1
side in-line	concrete plate 25x100	KR775123	189	173	124	51	118	134	9,7
	concrete plate 40x100	KR775323	189	173	120	65	118	134	9,7
	concrete plate 40x200	KR775423	289	273	220	65	118	134	9,7
	concrete plate 80x200	KR775623	289	273	220	105	158	174	9,7
side	concrete plate 25x100	KR732113	189	173	108	34	118	134	4,2
	concrete plate 40x100	KR732313	189	173	110	46	118	134	9,7
	concrete plate 40x200	KR732413	289	273	211	48	118	134	9,7
	concrete plate 80x200	KR732613	289	273	211	88	158	174	9,7

Only plaster finishing possible.

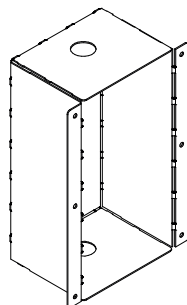

for side in-line:  
Always use in combination with the kreon plasterkit.

Please make sure the main voltage  
is disconnected before proceeding!

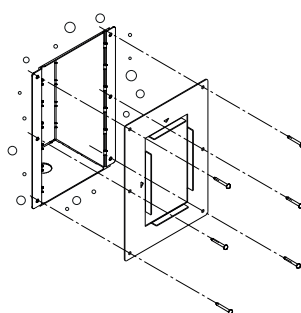

## installation concrete wall

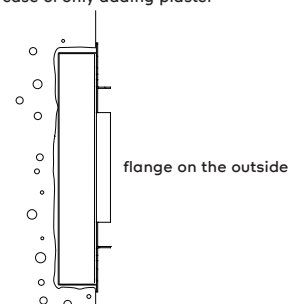

to install the concrete box  
see manual kr8000002279

mount the concrete plate to the  
concrete box

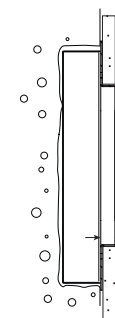

in case of adding plasterboard + plaster (\*)  
in case of only adding plaster

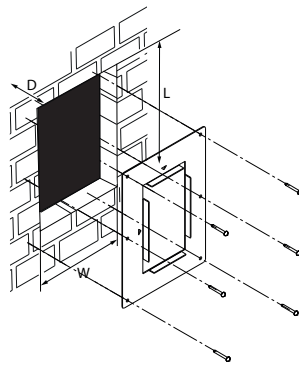

(\*) not applicable for side 25

maximum thickness D2 of finished plastered wall

	name	D2
side in-line	concrete plate 25x100	13
	concrete plate 40x100	13
	concrete plate 40x200	13
	concrete plate 80x200	13
side	concrete plate 25x100	4,5
	concrete plate 40x100	13
	concrete plate 40x200	13
	concrete plate 80x200	13

## installation brick wall

	name	reference	L	W	D
side in-line	concrete plate 25x100	KR775123	190	70	60
	concrete plate 40x100	KR775323	190	90	80
	concrete plate 40x200	KR775423	290	90	80
	concrete plate 80x200	KR775623	290	130	80
side	concrete plate 25x100	KR732113	190	70	60
	concrete plate 40x100	KR732313	190	90	80
	concrete plate 40x200	KR732413	290	90	80
	concrete plate 80x200	KR732613	290	130	80

These dimensions are applicable when only  
concrete plate is used. For dimensions  
with concrete box see manual kr8000002279
