Applications

kreon holon 60 is a range of surface mounted, track mounted and pendant cylindrical downlights characterised by its compact form and deep set LED position, providing a subtle feeling of light without a possible uncomfortable visual perception. The range uses a variety of LED modules and is the larger counterpart of holon 40. With a choice of fixed or directional units, kreon holon 60 can provide a discreet yet functional solution to general or accent lighting within architecture. Finished in black for a dramatic contrast or pure white finish.

kreon holon 60 directional is a spotlight with a rotational adjustment of 360° and an angular adjustment of 90°, which when combined with a choice of spot, flood, wideflood reflector, provides a versatile general or accent lighting tool. holon 60 directional can be recessed or surface mounted, or used on a 48v track system.

holon 60 fixed can be surface or pendant mounted for perfect solution in general or accent lighting and features a spot, flood or wide flood reflector. use holon 60 fixed to create pools or accent of lights.

Mounting

holon 60 is available in recessed, surface, pendant mounted. Also available in 48v track system (fixed, directional or wallwasher).
