

kreon kagi

kreon kagi

Applications

kagi means "key" in Japanese referring to the shape of a keyhole, which equals the shape of the profile and mimics the key to a 3-dimensional world.

kreon kagi is an innovative and extremely versatile profile system combining linear and accent lighting.

the basic 24V profile can be either recessed or surface mounted and can optionally be equipped with 5/8in or 1in diameter satinated continuous light tubes for a sustainable soft light distribution.

an ingenious junction allows a perpendicular, 90° tilted second level connection of the 24V profile.

additionally, round or square shaped spotlights, wallwashers and deco lights can be added by claping them on the main profiles. it is possible to change the position of the spotlights over the track. kreon kagi is an essential tool for architects and lighting designers that can be used as a graphic play of light or guide light.

Mounting

kreon kagi is available in recessed, surface, pendant mounted.

Optical system / LED's

246lm/ft

Color temperatures / CRI

2700K, 3000K / 90+

Controls / Dimming

0-10V, phase dimming

Finish

The luminaire comes with a standard option of either black or white finish. Custom RAL finishes are available upon request.
