prologe 40 directional, surface mounted

prologe 40 directional, recessed mounted

prologe 40 twin fixed

Applications

kreon prologe 40 is a miniaturized surface mounted downlight that thoroughly reflects kreon's principles in lighting: quality, design and architectural integration.

kreon prologe 40 is characterised by its compact form and hosts a single or double deepset invisible LED source. The kreon prologe 40 luminaires can be fitted with professional darklight optics with lumen packages up to 920 delivered lumens. Finished in black for a dramatic contrast or pure white to disappear in the surrounding architecture.

kreon prologe wants to create functional light through the discreet presence of simple architectural volumes in a compact surface mounted box.

prologe 40 fixed can be surface or pendant mounted for perfect solution in general or accent lighting and features a spot, flood, wide flood, dark light or wide dark light reflector.

Mounting

prologe 40 is available in recessed, surface, pendant mounted. Also available in 48v track system (fixed or directinoal).

Delivered lumens

547lumens for spot, flood and wide flood optics.

417lm for dark light and wide dark light optics on prologe 40 single.

912lm for prologe twins.

Color temperatures / CRI

2700K, 3000K / 90+

Controls / Dimming

ELV, 0-10V, Lutron EcoSystem. Other dimming type available per request.

Finish

The luminaire comes with a standard option of either black or white finish. Custom RAL finishes are available upon request.
