* This product is intended for indoor use only.

belux tubo

Description

belux tubo impresses with its simple elegance and ingenuity. Although the lamp does not have any joints at all, it can be easily adjusted in height. The retaining bracket simply has to be adjusted. Moreover, the direction in which light is cast is changed by turning the rod on its own axis. Light is emitted along 2/3 of the entire length of the rod. The satin-finish diffuser ensures excellent glare suppression and soft, virtually shadow free LED lighting. belux tubo can also be dimmed by means of an integrated button, making the lamp even more flexible.

Mounting

table light. easily adjusted in height. with adjustable retaining bracket simply has to be adjusted. See page 3.

Material

tubo is made from aluminum, and available in black or chrome finish.

Optical system / LED's

Available in 2700K CRI 80+.
