twilight

|	
Description	belux twilight sophisticatedly combines brilliant room and mood lighting and has been considered a classic floor-standing lamp for over 15 years. The range now features a cylindrical version, which broadens the lamp's range of potential applications in architectural spaces. belux twilight 360 is available in aluminium and bronze anodized finish. The inner workings of the light fixture feature LED light sources at the top and the bottom, which emit light towards each other and hence produce the belux twilight's characteristic effect. The indirect, high-performance of indirect room lighting. Both light sources can be dimmed independently, enabling endless lighting moods. The black version completes the existing range. The black base as well as the special black colored column ensure an extravagant 789ambience with a unique lighting atmosphere. Twilight is for indoor use only.
Mounting	floor lamp. twilight 10 (rectangular) available in a base made of stainless steel or black edition. twilight 360 (round) available in aluminum, bronze or black finish.
Material	stainless steel/ aluminum base and fasteners with acrylic semi-transparent LED housing.
Optical system / LED's	Available in 2700K, warm dim. CRI 80+.
